An

An Astrologo-Physicial Discourse.

THat the pre-dominion of humours, is the immediate cause of diseases; and that the excitation of these humors, is caused by the various and different Aspects and Positions of the Stars even by Hippocrates and Galen themselves confirmed. Trust we then to these Rules Astrological, to be observed for the advantage for the sick;

Let the { Sanguine, Cholerick, Phlegmatick, Melancholy } bleed the ☽ being in { ♈, or ♊. ♋, or ♌. ♎, or ♐. ♑, ♒, or ♓. }

But let her be also in the Aspect of the Fortunate Planets, and seated in a fortunate part of Heaven.

It is good to purge with Electuaries, when the ☽ is in ♋; with Pills, when she is in ♓; with Potions, when in ♍, because then posited as before directed.

Vomits are unsafe for all sorts of complexions and constitutions yet sometimes there is a necessity for them; as when the Distemper lyeth above the stomach; it being impossible for a Purge, or any purgative Medicine thence to carry it; but when there is occasion they may be safely taken when the ☽ is in ♉, ♍, or ♑ in any good Aspect of ☿, ♀, or ☉.

Glysters are most conveniently administred, when the ☽ is in ♈, ♒, or ♍, posited as before.

Good to stop Fluxes, or Rheumes, or Issues, when the ☽ is in one of the Earthly Signs, viz. ♉, ♍, or ♑; of which experience is a valuable witness.

Very proper to Bath, when the ☽ is in ♋, ♎, ♒, or ♓, in Aspect of ☿, or ♀.

Convenient to cut Hair, the ☽ being in ♎, ♐, ♒, or ♓, increasing in Light. And although this be in the opinion of many but a Trivial thing to observe; yet were it more taken notice of by the Gallants of our times, they need not disguise themselves with Venus Locks; But they, it may be, esteem it an Honour to be made amends with a part of her, that Originally injured them.

Medicina a medico; medela ab altissimo.

Sundry Excellent Astrological Rules to be Observed in Husbandry, according to *Claudius Dariot*, and other Learned Astrologers.

IT is not unknown (*but by daily Experience Demonstrated*) to those of Cain's *Profession*, (viz. *Tillers of the Ground*) that all Plants, Seeds, *and other things, which are produced out of the Bowels of the Earth*, (*having her for their common Parent, as it were*) do receive both *Increase and Decrease by the motion, and position of the* Moon, *and therefore it is, that the careful Husbandman in Sowing* Seeds, *planting* Trees, *graffing* Scions, *pruning* Vines, *gathering* Fruit, *felling* Timber, *dunging Land, and in all other necessary Appendixes to Agriculture, that he may the better reap the Fruits of his Labour and Toyl, should be acquainted with the Influences of the* Moon *and* Stars, *as the Noble* Virgil *approves of in his* Georgicks. *And that his expectations may be the better answered, he ought in the first place to have a special regard to the state and condition of* Saturn *that he be not impeded or afflicted in the beginning of any Rural affairs, for that he is the Ruler of Husbandry, and hath Dominion over all Terrene Commodityes. Let him therefore* (*if you can so order it*) *be in good aspect of* Jupiter *or* Venus *well affected, not Peregrine, Retrograde, or Combust, but rather in some of his own Dignityes, in good Configuration of the* Moon, *free from the Beams of* Mars, *who, in this Case ought to be weak, Cadent, Peregrine, Combust, void of all Dignity as well Essential as Accidental.*

Let all manner of Grain or Corn be sowed when the Moon *increases, in Signs movable, as* Aries, Cancer, Libra, Capricorn, *or, if she cannot be in* Taurus, Virgo, Sagittarius, Pisces, *let her be in Sextile or* Trine *of* Saturn; *if your Land be moist, or the Seed of a moist nature that is sowen, then let the* Moon *be decreasing in* Virgo, Capricorn *or* Aries, —— *If your Ground be dry and the Seed of like condition, let the* Moon *be increasing in* Cancer *or* Pisces, *in good aspect to* Saturn, *who, together with the* Moon *should be in good configuration of* Jupiter *or* Venus, —— *but if your Land which is to be Sowen be of a middle Constitution or Condition*, viz. *between dry and moist, it is then good to Sow it, when the* Moon *is in* Libra, *well aspected.*

TRIGGE, 1689.

What you intend to Plant, let the Moon *be in* Conjunction, Sextile *or* Trine *of* Saturn, *free from the Body or ill Beams of* Mars, *in a fixed Signs, as* Taurus, Leo, Scorpio, *or* Aquarius, *and let her be in some aspect of* Jupiter *or* Venus, *if possible.*

In planting Trees or Vines, let the Ascendant be Fixed, and the Moon *placed in an Earthy Sign, as* Taurus, Virgo *or* Capricorn, *in good aspect of* Saturn.

Graft or prune Trees the Moon *decreasing in* Aquarius *chiefly and in aspect of* Jupiter *or* Venus.

Fell Timber for Architecture from November *the 22 to* January 22. *the* Moon *decreasing in* Taurus, Virgo *or* Capricorn, *and let her be in good aspect of* Saturn.

Plash Hedges, fell Wood for Fewel, that the Stocks may the better grow again, the Moon *increasing in* Aries *or* Libra, *chiefly in the first quarter,* Jupiter *or* Venus *assisting.*

Cut Vines in December, January *or* February *the Moon in* Aries, Taurus, *or* Libra. *Remove Trees when she is in the same Signs, all the last quarter in* November, December, *or* February, *and dung Land to prevent Weeds, in the last quarter.*

Good to till Gardens, to Sow and set Plants and Herbs; to set Hop-poles and make a Hop-yard, the Moon in Libra *or* Aquarius.

Gather Apples, and other Fruits, Herbs and Flowers, to have them large and fair the Moon increasing toward the Full: to keep and preserve them in store, gather them dry, the Moon decreasing, in aspect of Jupiter *or* Venus.

Shear Sheep, cut Grass for Hay, the Moon increasing, so it will Spring again the sooner. Kill Fat Swine near the Full, the Fat will endure boyling the better, and make less then if kill'd at other times.

Geld Cattle, kelt Lambs, the Moon decreasing free from the beams of Saturn *or* Mars, *and in some aspect of* Jupiter *or* Venus.

Of the great use of Starry Influences, even in common Affairs, let the Reader peruse the R. Dr. Goads Astro-meteorologica, *wherein he will find variety of instances of Cœlestial Energie, to his great satisfaction. Also he may read a Book Entituled* Cardines Cæli, *whereby Country People may learn how to prove good Husbands, and Housewives in consulting Astrology.*

To every thing there is a season, A time to plant, &c. *Eccles.* 3. 8. 1. 2.

TRIGGE, 1689

Of the four SEASONS of the YEAR,

THe Spring, the most pleasant, vigorous and delightful Season in the whole Year, begins when the Sun, the Glorious Lamp of Heaven touches the very Scruple of Aries, there beginning to run his Race afresh to us, and by affording us more of his presence, lengthens the Days, and shortens the Nights to us on this side the Æquator. And this Year happens on March the 9th. day, 7 hours 53'. P. M. or Afternoon.

Allowing the Astronomical Tables in the Doctrine of Nativityes and in Harmonicon Cæleste, and Astronomia Britannica to be true, (which they are owned for by the best Astronomers) this is then the Exact Figure of the Sun his entring into the Vernal Equinoctial point Aries, this Year 1689. The Scheam it self is Cardinal, having the Prime Angles of the same adorn'd with Cardinal Signes. The Noble Trine of Jupiter so exact to the Horoscope, and the Glorious Star Spica Virginis rising the e with shews a healthful and happy Year to the Commonalty generally, and naturally begets good Inclinations in them, with a Veneration for true Religion more then formerly, Spanish Pilgrims, and Black Bills sent by the Post, no Popery it self, so deadful as in Otes's Reign. Yet, the conspiring Plotting Planet Mercury, (Lord of the Ninth) in Aries, in Opposition to the Horoscope, and in quadrate of Mars, shews some discontented Per-

ſons, pretending Zeal and Piety, will be piouſly buſie (tho at their own Coſt) to breed Diſturbances, and broach many ungrateful if not direct Scandalous Reflections on the Government it ſelf, (Poſſibly more Diſſenters Letters may Fly about.) for both Mercury and Mars obviate as well the Medium Cœli, as Horoſcope. But, I warn them fairly to have a care, and take heed what they do: Thoſe that Endeavour to poiſon the Rivers of our Peace, and growing Happineſs, will themſelves be Enforced (as a Perillous Puniſhment) to drink deep of the Waters, not to their Satiety only, but alſo to their very Burſting. —The double Reception of the Moon and Venus, and Saturn and Mars, happily Harmonizeth with the Noble Effects of Jupiters Angular Poſition, and his Trine to the Horoſcope, and, although the Oppoſition of Saturn and Venus ſeem to menace many Unfortunate Marriages in this Revolution, with a probable fear of ſundry Perſons who are already joyn'd in Holy Wedlock, to ſeperate from each other, (the Serpent will ſtill be tempting the Daughters of Eve, as in Paradiſe he did their Mother) yet, the Moon, collecting the Light of both Planets, is of ſo kind and Friendly an Influence as to promiſe a Reconciliation where ſuch unnatural Breaches ſhall be made. The advice of Worthy ſerious Friends, and principles of Piety or Religion, being cal'd to mind, and ſober moderate Reflections upon the Errors that Humane Frailty is commonly Obnoxious unto, being more heeded and regarded, than the Unruly Alarums of Bruti ſh Luſt and Paſſion: Theſe I ſay, will prove a ſeaſonable Coment, nay, the alone Amulet, to Conquer and allay the moſt furious Diſturbances, or Irruptions, that are, or can be threatned between ſuch near Relations. And God grant they may be minded, as I hope they will. For Jupiter is in a Humane Sign, (though Saturn and Venus poſſeſs thoſe cal'd Reptile, and Brutal.) darting his good Influences upon Humane kind, if they'l be but ſo wiſe as to improve them, Nay, he caſts a Friendly Beam, as well to the Seventh Angle, as to the Horoſcope. So that nothing but Humane Peccancy can hinder humane Felicity in this Revolution. Our Deſtruction and Ruine (as the Sacred Oracles tell us) is of our ſelves, but in God is our help. The Influences of the Stars are not like Prætorian Edicts; It is in our choice whether we'l obey them, or be Enſlaved by them, whence a witty Author thus writes

Viz;

The Stars are Cauſes, but cannot compel,
Their Influence may be reſiſted if you will.
But if you do let looſe the Reins of Senſe,
And ſtrive not to abate their Influence,
They operate moſt ſtrongly! And you muſt,
When They bid, Down, recire into the Duſt.

Aſtra agunt, non Cogunt. They incline, but cannot compel; And, as *Indagines* ſays, ſo gently too, that their moſt powerful Energie may be Enervated. So that no good Man or Chriſtian, if inclined to Murder, Luſt, or any other notorious Crime, (as ſometimes even the beſt of Mortals have bin ſubject to,) can juſtly lay the blame upon *Mars*, or *Venus*, or on any other Star in his Horoſcope; but rather upon his own inadvertency, or his hearkening to the worſer ſort of Impulſes that attend on Humane kind. *If any Man is tempted, he is drawn away* (not by his wayward Stars, but) *by his own Luſts, and Enticed*: as the bleſſed Apoſtle *St. James* hath affirmed, and that moſt truly. But enough of this in this place.

The Diſtempers of this Revolution are, for the moſt part, *Corruption of Blood, Feavers, Small Pox, Phrenſies, Oppilations* of the *Liver* and *Spleen*; *Diſeaſes* in the *Throat, Reins* and *Ureters, Womb, Paſſions* in *Women*, with other undue Obſtructions which may require the timely aſſiſtance of the Learned Phyſician to remove. — As to the Conſtitution of the Air, it is likely to be Windy and Turbulent, attended with great ſtorms of moiſture, Hail-ſtorms, *&c.* God grant no unkind Blites or Mildews to endamage the approaching Harveſt. A fear alſo of ſome unſeaſonable Floods, if not an Earthquake before the *Autumnal Equinox*: for ſo long this Revolution continues, but no longer, the Figure of the Spring being Cardinal, and movable, though the Lady of the Horoſcope be fixed.

In this Revolution there happens a great Eclipſe of the *Moon*, *viz.* on *March* the 20th. day, in 15 degrees of *Libra*, about ſeven of the Clock at Night; This leſſer Luminary will be Eclipſed in the very degree of the *South Node*, called, *Κεφαλὴ Δράκοντος*, or the *Dragons Tail*. It begins in the Twelfth

Angle

Angle, the *House of Sorrow, Labour, Fear, Dolour and Carceration*, and so are *Librarians*, (or Persons born under *Libra*,) under Malefique Influences will find it. But it ends in the *Medium Cæli*, promising such troubles soon to pass over, and that the sufferers for Honour and Loyalty shall meet with unexpected Advancement, as a recompence of their patience. And this though *Saturn* be in the *Horoscope* thereof (as in the Revolution) and in Quadrate to angry *Mars*. To conclude, I say though the Friends of the Government, and of the True Church are Envyed, Plotted against, Redicul'd and Despis'd, (the Eclipse happens in *Signum Justitiæ*,) the passing of these Alps of *Envy*, *Scorn*, *Contempt*, &c. will certainly let them into an *Italy* of Tranquillity at the last, which God grant. And so I come to the *Autumnal* Figure, which is as follows.

This Celestial Scheme is in an amicable Sextile to that of the Spring, and its moral significations will bear a Proportion or Analogie unto those depending on that Ingress: wherefore as to them I shall say nothing more, then what I have there already mention'd. But as for the Natural Portents hereon depending, they are like to be somewhat severe both as to the Weather, and to Diseases; By reason of the great angular Opposition of *Saturn* and *Mars*, and the Moon her

her being in Aſpect of both; from *Capricorn*, her Detriment, whence we are like to have much more Snow, then in the laſt Year, 1688. with ſharp (but not long) Froſts, great Raines, and Floods; and perhaps a Comet or Earthquake.

The Diſeaſes that are like to afflict Mankind in this later Hemiſphere of the Year, are like to be *Quartan Agues*, *Jaundice black* and *yellow*, *Quinzeys*, *great Colds*, *Coughs*, and *Scrophulous Humors*, *Diſeaſes* in the *Secret parts*, *Wandineſs* in the *Spleen* and *Midriffe*, *Cramps*, *Stiches*, *Chollick pains*, *Scurvey*, *Aches* in the *Joynts*, *Gout*, *Sciatica*, *&c.* with ſundry other unkind latent Diſtempers, even troubleſom to the Learned Phyſician (without Aſtrology) to underſtand.

During this Revolution, *viz.* On *September* the 19th day, at Two of the Clock in the Morning, will the Moon be Eclipſed totally, in ſeven degrees of *Aries*. It will be a great Defect, becauſe it happens near the North Node, or *Dragons Head*; and therefore worthy the Induſtrious Aſtrologers obſervation. though he loſe a little Sleep to attend it. The Sun rules the Horoſcope at the beginning thereof, and *Cor Leonis*, a Glorious Star of the firſt Magnitude riſes in the Eaſt Angle. But my Paper growing ſhort, and fearing to tranſgreſs my bounds, I forbear to mention its Natural Portents: And therefore for this Year take leave of my Gentle Reader,

FINIS.
